TRAGEDY IN AUGUSTA

**Young Woman Shot Railroad
Cashier in Jealous
Rage.**

WANTED TO MARRY ANOTHER

Walked into Georgia Central Office
and Fired Five Times Into Body
of Young Man She Loved.
A Sensation.

(By Wire to The Morning Star.)
Augusta, Ga., Aug. 18.—In a fit of
jealousy this evening Elvira Todd, a
young white woman about 22 years
of age, entered the office of the Central
of Georgia Railroad freight depot
and probably fatally shot Cashier D.
Richard Watson.

The young woman claims that she
has for the past seven years been in-
fatuated with Watson, who is a young
man. She claims that he held out a
ray of hope for her until a few days
ago when he "threw her over." In a
statement given out tonight she says
that she loved "Dick" and could not
see him marry another woman.

The shooting occurred in the main
office of the freight department of the
road. After firing two shots through
a window, she made her way into the
building and to Watson's office. Watson,
who was unarmed, attempted to
get inside of a large iron safe, but was
unable. The woman's first shot went
wild, but the second penetrated his
collar and grazed the Adam's apple.
The next shot broke his right leg just
above the knee and from this wound
Watson fell to the floor of the office.
He begged for his life, but standing
directly over his prostrate form the
last cartridge in the pistol was fired
which entered his chest just about one
inch above the heart. It penetrated
the left lung and passed out of the
body through the shoulder blade. The
shooting was done with a 32-calibre
pistol, six shots being fired, three tak-
ing effect. Watson was hurried to the
city hospital and the unfortunate girl
put under arrest.

When arrested, she said: "I love
the ground Dick walks upon but I will
not let him marry another woman. I
hope I have killed him." She is held
without bail. Young Watson's condi-
tion is critical.

MAJ. JOHN MONROE DEAD

Esteemed Citizen of Bladen County
Passed Away Yesterday.

(Special Star Telegram.)
Elizabethtown, N. C., Aug. 18.—
Bladen county loses a good citizen,
Major John Monroe, a veteran of the
Civil War, who died at his home at
White Hall today, after an illness of
several weeks with a disease pro-
nounced by some of the doctors to be
pellagra. He was in his 76th year. He
had a host of friends in this and other
counties, who will learn with regret
of his sad demise.

SUICIDE ON ACCOUNT OF LOVE

Young Virginian Shoots Himself
Through the Head.

(By Wire to The Morning Star.)
Fredericksburg, Va., Aug. 18.—Unre-
quited love is said to have caused the
suicide here today of J. Frank Covey,
son of Frank T. Covey, of Newport
News, who shot himself in the fore-
head with a revolver. The shooting
occurred in the dining room of M. J.
Gately's home, where the young woman
in the case resided. Young Covey
was 22 years old.

OUTLINES.

There is constant shooting at Pitts-
burg between strike breakers and
strikers at the Pressed Steel Compa-
ny's plant. A bystander was shot yester-
day.—At New Orleans yesterday,
there was another hot day, the tem-
perature climbing to 100, resulting in
one death from the heat.—During the
fiscal year just ended the Louisville
& Nashville railroad eclipsed the busi-
ness of last year, the net receipts hav-
ing been \$4,873,077.98.—The Navy
Department has approved the findings
of the naval court held at Annapolis
regarding the death of Lieut. Sutton.
The court holds that Lieut. Sutton
either committed suicide or killed him-
self while attempting to shoot his as-
sailant.—A torrid wave swept the
Southwest yesterday causing several
deaths and many prostrations.—Mrs.
Cora L. Hanson, of Macon, Ga., yester-
day filed a suit for divorce against
her husband, Major J. Fletcher Han-
son, president of the Central of Georgia
Railroad, charging him with infatu-
ation of a Mrs. Horner and cruel treat-
ment.—New York markets—money

MAJOR HANSON IN A SCANDAL

Wife Files Suit for Divorce Charging
Infatuation With a Mrs. Horner
and Cruel Treatment—
Railroad President.

(By Wire to The Morning Star.)
Atlanta, Ga., Aug. 18.—Charging
her husband, Major J. Fletcher Han-
son, president of the Central of Georgia
Railroad, with infatuation of a
Mrs. Horner, and cruel treatment,
Mrs. Cora L. Hanson, of Macon, Ga.,
today filed suit for divorce in the Su-
perior court in this city.

Mrs. Hanson, in her bill, alleges
that her husband in 1907 became in-
fatuated with Mrs. Horner and paid
her devoted attention, notwithstanding
divorce proceedings were pending
between Mrs. Horner and her husband
and that Mr. Hanson insisted that she
receive Mrs. Horner as her guest in
her home at Macon.

Mrs. Hanson declares that she as-
sociated with Mrs. Horner to protect the
reputation and peace of the family,
hoping the Major's infatuation would
cease, "but knowing that the unfor-
tunate relations of her husband with
Mrs. Horner were already the subject
of a great and growing scandal, and
being sure a compliance with her re-
quest would mean disgrace to her hus-
band and peculiar and insufferable
degradation and humiliation to her-
self, she refused his request to con-
tinue to receive her."

The Major's reply, she avers, was a
threat to "give up everything and
leave the State." Finally she agreed
to give the Major up if he would sup-
port her.

Mrs. Hanson is now in California,
while the Major is in the Middle West.
Mrs. Horner is said to be in New
York.

Mrs. Hanson declares that she was
so in fear of her husband that she of-
ten slept in the bath room. Although
not asking for alimony, Mrs. Hanson's
asks for attorneys' fees and a total
divorce. She says Hanson is worth
\$300,000, while she has an annual in-
come of \$4,500 from property in his
possession.

While not specifically named in the
suit, Mrs. Horner referred to, is de-
clared to be Mrs. Mitchell Horner, bet-
ter known as Mrs. "Jack" Horner, who
sued her husband for divorce. Horner
retaliated with a suit for alienation
against her foster parents, Dr. and
Mrs. Emerson, of Baltimore.

She is Now Mrs. McVicar.

Baltimore, Aug. 18.—The Mrs. Hor-
ner referred to in the Hanson divorce
suit entered in Atlanta, Ga., was Mrs.
T. Mitchell Horner who, before her
marriage, was Miss Daisy Emerson,
daughter of Mr. and Mrs. Isaac Em-
erson of this city. After her divorce
from Horner she married James Mc-
Vicar, of New York, where she now
lives in Park avenue. Horner entered
suit against his wife's parents for
alienation of her affections, but the
suit was afterward dropped.

Communications received in this
city from Mrs. McVicar tonight say
that there must be some mistake in
connecting her with the Hanson case,
that while she was, while living in
Atlanta, a frequent visitor to the Han-
son home, she was on most cordial
terms with Mrs. Hanson, whereas be-
tween her and Mr. Hanson there ex-
isted nothing more than good friend-
ship.

PROSPERITY FOR L. & N. ROAD.

Net Earnings \$4,873,077.98 For Last
Fiscal Year.

(By Wire to The Morning Star.)
Louisville, Ky., Aug. 18.—Gross ear-
nings of the Louisville and Nashville
Railroad for the fiscal year ending
June 30, as shown by a statement
made today, were \$4,873,077.98, as
against \$4,620,281.16 for the fiscal
year ending June 30, 1908.

The operating expenses for the fiscal
year were \$29,627,499.48 as compared
with \$33,694,967.17 for the previous
fiscal year, leaving net increase of
earnings over the last fiscal year of
\$4,873,077.98.

This is considered a remarkable
statement in view of the recent finan-
cial depression covering nearly two
years. One item on which the Louis-
ville and Nashville Railroad has been
able to save thousands of dollars is
the building of the road's own engines
at shops in South Louisville.

No lines were discontinued during
the year and recently the road ac-
quired the Louisville and Atlantic Rail-
road.

SOUTH CAROLINA ELECTION.

Prohibition Primaries as First Re-
ported—Dispensary.

Charleston, S. C., Aug. 18.—Complete
unofficial returns from all the South
Carolina counties in which liquor elec-
tions were held yesterday show that
the prohibitionists carried fifteen coun-
ties, the county dispensary system
winning in Aiken, Beaufort, Charles-
ton, Florence, Georgetown and Rich-
land counties. A contest in Richland
county is considered likely.

Jacksonville Team.

Jacksonville, Fla., Aug. 18.—Today's
game was forfeited to Knoxville 9 to
0, the local owners refusing to allow
their team to play with Westervelt
as an umpire. Immediately following
the game the owners of the team turned
their franchise over to the league
and the outcome of baseball in this
city is awaited with much interest. It
is rumored tonight that other citizens
will take the club and in the mean-
time the team will be carried by the
League.

TEST TARIFF LAW

Constitutionality of New Cor-
poration Tax Will be
Tested.

PRESIDENT NOT DISTURBED

Constitutionality of New Cor-
poration Tax Will be
Tested. Any Test That Might Be Applied.
Wickersham Coming to Be-
verly Friday.

Taft Convinced That Tax Will Stand
Any Test That Might Be Applied.
Wickersham Coming to Be-
verly Friday.

(By Wire to The Morning Star.)
Beverly, Mass., Aug. 18.—Reports
which are reaching Beverly daily from
Washington and New York that the
constitutionality of the new corpora-
tion tax is to be tested just as soon
as an effort is made to collect it, have
not disturbed President Taft. The
President declared they were all an-
ticipated.

Mr. Taft himself a lawyer of some
eminence, and father of the corpora-
tion tax idea, is thoroughly convinced
that the tax will stand any test that
may be applied to it. Attorney Gen-
eral Wickersham, a corporation law-
yer of note, and Senator Root, collab-
orated on the corporation tax provi-
sion of the tariff bill and the measure
as enacted they believe will survive
any attempt to nullify it.

Attorney General Wickersham is
coming to see the President Friday,
but the prospect of litigation over the
corporation tax has nothing to do with
the visit. Mr. Wickersham has some
pardon cases upon which he desires
the President to act and he wants also
to go over with Mr. Taft a few of the
provisions in the law for the reor-
ganization of the duties of the Inter-
State Commerce Commission; the
amendment of the Sherman anti-trust
law and bringing inter-State corpora-
tions more definitely under the con-
trol of one branch of the government.

These subjects will be the principal
recommendations in the President's
message to Congress next December.

In his speech of acceptance, in his
inaugural address and during his cam-
paign tours, President Taft definitely
committed himself to the so-called
"Roosevelt policies" and declared that
the principal aim of his administra-
tion would be to establish the neces-
sary machinery to enforce these laws.

According to Mr. Taft's view the
machinery to enforce the laws on the
statute books is now inadequate. He
believes that the Inter-State Com-
merce Commission is so over crowd-
ed with work that the long delays in-
herent to its investigations and decisions
under existing conditions work a hard-
ship alike to the railroads and the
complaints with grievances.

He believes that the commis-
sion ought to be relieved of its jurisdiction
as an executive, directing body and
that its functions should be limited to
the quasi-judicial investigation of com-
plaints made by individuals.

The President also believes that un-
der the Sherman anti-trust law as it
stands today there is much to inter-
fere with legitimate business, but that
by amendment it can be made an ef-
fective and just instrument.

To bring about a coalition of the law
departments of the various govern-
ment departments which have to deal
with railroads and other inter-State
corporations and "trusts" so as to per-
mit of quick and decisive action in
case of offense against the statutes,
is another of the tasks which the Pres-
ident has set himself to.

The President received a rather
mysterious visit today from Assistant
Secretary of the Treasury Norton who
was accompanied by Charles G. Dawes
former controller of the currency, and
now president of the Central Trust
Company of Chicago. Neither of them
would discuss the visit in any way.

Assistant Secretary Norton is in
charge of the internal revenue divi-
sion of the treasury and his visit may
have to do with the collection of the
corporation tax.

Secretary MacVeagh, who will visit
the President Friday or Saturday, will
take up with him the appointment of
the members of the tariff advisory
commission authorized in the tariff
bill. It is likely that at the conference
between the President and Mr. Mac-
Veagh a decision will be reached as
to whether the Commission shall con-
sist of three or five members.

BREESE STILL ON STAND.

Cross-Examined by District Attorney
Holton—Bank's Affairs.

(By Wire to The Morning Star.)
Asheville, N. C., Aug. 18.—The cross-
examination of Major W. E. Breese to-
day by District Attorney Holton was
enlivened with repartee between ex-
aminer and examined.

The district attorney inquired mi-
nutely into the matter of how much
money the bank had to loan at the
time the first loans were made to
Breese, and how it was that the bank
experienced difficulty in getting loans
when at that time it had loaned out
half its assets.

LAW THE SUTTON INQUIRY

Navy Department Approves
Findings of Naval
Court.

RESPONSIBLE FOR OWN DEATH

Evidence Shows That He Committed
Suicide or Killed Himself While
Trying to Shove His Assail-
ants—Not Satisfied.

(By Wire to The Morning Star.)
Washington, Aug. 18.—With the
publication today of Acting Secretary
of the Navy Winthrop's approval of
the findings of the court of inquiry
that Lieut. James N. Sutton, Jr., of
the United States Marine Corps, was
directly and solely responsible for his
own death at Annapolis, nearly two
years ago, the famous Sutton case be-
came a closed incident as far as the
Navy Department is concerned.

Counsel for the Suttons intimated,
however, after the court's decision
had been known definitely, that they
were far from satisfied with the ver-
dict and they probably would take the
issue involved to Congress with a
view to having a full hearing of the
case by a committee of that body.

Mrs. Sutton decline to discuss the
result of the inquiry which she sought
in an effort to clear her boy's name
from the stigma of suicide. Acting
Secretary Winthrop said that he had
closed the court of inquiry.

Too much time has elapsed since
the incident, in the opinion of the Na-
vy officials, to undertake any proceed-
ings against the persons whose con-
duct in the case has been made the
subject of criticism by the court.

They, however, will be made acquaint-
ed in an official but informal way, of
those criticisms, which will both serve
the purpose of an admonition to them
and of presenting to them the view
taken by the Department of their con-
duct.

Though Mr. Winthrop, in his en-
dorsement, speaks of the lax state of
discipline existing at the marine
school prior to, and at the time of Sut-
ton's death, he says that conditions
have improved, that splendid disci-
pline prevails at this time and that
he is confident that the unfortunate
situation previously existing will not
again prevail.

The marine school of application is
now located at Port Royal, S. C., un-
der the direction of Lieut. Col. Cole,
who is regarded as a very excellent
and able officer and who, Mr. Win-
throp feels, will see that the institu-
tion is maintained at a high state of
efficiency.

Lieut. Sutton is directly and solely
responsible for his own death, which
was self inflicted, either intentionally
or in an effort to shoot one of the per-
sons restraining him, and his death
was not caused by any other injury
whatsoever.

This was the verdict of the naval
court of inquiry, which verdict has
been approved by the judge advocate
general of the Navy and by Beekman
Winthrop, assistant and acting Sec-
retary of the Navy.

The court also finds: That Lieut.
Utley failed in his duty as senior offi-
cer present in permitting Lieut. Sut-
ton to run away and arm himself.

That Lieut. Beven, officer of the
guard, failed in his duty in not dis-
arming Lieut. Sutton by force while in
front of his, Sutton's tent.

That Lieut. Willing, officer of the
day, failed in his duty in not immedi-
ately arresting by force in helping to
disarm Lieut. Sutton when he arrived
on the scene before the fatal shot was
fired.

That the charges of wilful murder
and conspiracy made by the com-
plainant, Mrs. Sutton, mother of Lieut.
Sutton, are purely imaginary and un-
supported by even a shadow of evi-
dence, truth or reason.

The court recommends, however,
that in view of the youth and decided
inexperience of Lieuts. Utley, Willing
and Bevan, at the time and of the al-
together unusual conditions of excite-
ment, threats, and danger during the
aforementioned affray, that no fur-
ther proceedings be taken.

MOONSHINER SHOT AND KILLED

Revenue Officers Trapped Illicit Dis-
tiller in Pitt County.

(By Wire to The Morning Star.)
Raleigh, N. C., Aug. 18.—John Brin-
son, a moonshiner who resisted arrest
and started at officers with a gun when
trapped at an illicit distillery in Pitt
county last night, was shot and killed
by Sheriff Tucker and deputies. Brin-
son was an old offender. Two others
captured at the still were landed in
jail.

KIMBALL GOES TO PEN

Accompanied by Physician Because of
His Physical Afflictions.

(Special Star Telegram.)
Raleigh, N. C., Aug. 18.—George A.
Kimball was committed to the penitenti-
ary this afternoon to serve three
years for defalcation as cashier of the
Citizens' Bank and Trust Co. of South-
eastern Pines. Kimball was brought to
prison by Dr. A. McN. Blair, who is
specially deputized to attend him be-
cause he is suffering from advanced
tuberculosis and locomotor ataxia.

TORRID WAVE IN SOUTHWEST

Temperatures From 100 to 114 in the
Shade in Texas, Louisiana, Mis-
sissippi and Alabama—Sev-
eral Deaths from Heat.

(By Wire to The Morning Star.)
New Orleans, Aug. 18.—What is be-
lieved by the local weather bureau
officials to have been the climax of a
period of intensely hot weather in
New Orleans was reached at 3 o'clock
this afternoon. At that hour a tem-
perature of 100 degrees was register-
ed, the highest, with one exception,
recorded in New Orleans during the
last 30 years. The record high tem-
perature is 102 in 1901. Several per-
sons were taken to the hospitals late
today after being overcome by the
heat. One death was reported.

Vicksburg, Miss., Aug. 18.—Vicks-
burg is still enwrapped in the terri-
ble heat wave, the thermometer hav-
ing gone to 99 today.

Mobile, Ala., Aug. 18.—The maxi-
mum temperature today was 101 de-
grees, the highest recorded in August
since the founding of the weather bu-
reau 28 years ago. This has only been
exceeded once in July 1901, when the
maximum was 102. Two prostrations
were recorded.

Fort Worth, Tex., Aug. 18.—At 1:40
o'clock this afternoon the thermome-
ter registered 113 degrees. Up to 2
o'clock eight prostrations had been re-
ported.

At Sherman 107 degrees was regis-
tered, the highest in 20 years, and at
Palestine 107 was also reached, the
highest in 25 years. The water supply
at Palestine is low and people are suf-
fering severely from the high tempera-
ture and dust.

Dallas, Tex., Aug. 18.—The thermo-
meter registered 114 degrees in the
shade at 3 o'clock today, breaking all
records at the government observatory.
Correspondingly high tempera-
tures are reported from various parts
of the South. Cooler weather is pre-
dicted for tomorrow.

Jackson, Miss., Aug. 18.—Today
goes on record as the hottest ever ex-
perienced here. Observer Hintz re-
ported 105 degrees. One negro died
from prostration.

COLUMBUS INSTITUTE

Large Gathering at Chadbourn on Mon-
day—Strawberry Culture.

(Special Star Correspondence.)
Chadbourn, N. C., Aug. 18.—The
Farmers' Institute here Monday was
attended by a large number of Colum-
bus county's most prosperous and en-
terprising farmers with members of
their families. The institute was held
in the beautiful grove back of the
Brown store where an improvised
stand had been erected. Hon. J. A.
Brown was master of ceremonies and
presided in his usual happy manner.
Mr. Layton of Bladen county, discus-
sed generally "Farm Problems," which
was practical and interesting. He
dwelt principally on peas and other
leguminous crops as a means of sup-
plying nitrogen to the soil. Mr. W. R.
Beattie, of the Bureau of Plant Indus-
try, Washington, D. C., spoke on the
culture of strawberries. He deplored
the almost general neglect of cultiva-
tion, need of better drainage, of the
Burdo mixture for spraying purposes
and the necessity of an honest pack.
Prof. Franklin Sherman, Jr., spoke of
crop pests, following which an elegant
dinner was spread in the grove
and greatly enjoyed.

In the afternoon Prof. Hutt spoke
on the value of good seed and on pest
weeds after which Mr. Sherman em-
phasized the necessity for the better
selection of seed corn. Music was
furnished during the day by the Vine-
land band. The third of a series of
games of baseball between Whiteville
and Boardman to be followed by a
game between Clarkton and Chad-
bourn was scheduled for the after-
noon but rain interfered in the fourth
inning of the first game, score 2 to 0
in favor of Boardman.

Very Amusing.

The late Dr. A. K. H. Boyd of Scot-
land once visited a woman who had
lost her husband. By way of comfort-
ing her he proceeded to set forth with
great earnestness and beauty of lan-
guage the joys of the state to which
the departed one had attained. The
bereaved woman, with a vivid recol-
lection of her husband's defects, found
it hard to share in the minister's hopes,
although she wished to show her sense
of his kindness. She unburdened her-
self thus: "Well, Dr. Boyd, you're
maybe no vera instructive, but you're
aye amusing."

Casting Metals.

As is well known, some metals are
unsuitable for casting, while others,
like iron, can readily be cast in any de-
sired shape. The property of casting
well is said to depend upon whether
the metal contracts or expands on so-
lidifying from the liquid form. Iron,
like water, expands in solidifying, and
hence the solid metal may be seen
floating in the liquid iron about it.
The expansion causes it to fill the die
into which it is poured, and so it can
be cast easily. Gold and silver con-
tract in cooling and therefore are not
suitable for casting.—Exchange.

With but four precincts to be heard
from the nomination of Francis J.
Honey, special prosecutor in the graft
cases in San Francisco, as Democratic
candidate for District Attorney, was
virtually conceded last night.

Rocky Mount	29	48	.377

Five to three was the song the wires
sung at the electric matinee at Struth-
ers' yesterday afternoon and it was
all in Wilmington's favor, making it
three straights from Rocky Mount on
the Railroaders' own yards. Wysong
and Smith were the opposing pitchers
and each yielded nine hits, but Lefty
kept his dispensations well scattered
while the Sailors hit opportunely and
took the best advantage of the errors
of their opponents.

In the first Nichols started the game
with a fly to centre and Guerrant and
Sharp were out second to first. Lam-
bert and Krebs, the first Railroaders
to face Lefty, whiffed but Murray fol-
lowed this with a swat to left for two
bases and scored on Farrell's single
to left, Rapp retiring the side by foul-
ing to Kite.

In the second Brodie was out third
to first, Lohr fanned and Brennan flew
to right. Ogara, Burke and Conn flew
to the infield. In the third Willing-
ton tied the score when Jayes started
with a single and was sacrificed in
succession by Kite and Wysong, scor-
ing on Nichols' bingle to centre. Sex-
ton ran for Nichols and stole second
but Guerrant fanned. Heady work on
the part of Kite and Brennan cut off
another score for Rocky Mount in the
third, for after Smith and Lambert
were out short and pitcher to first,
Krebs hit to Wysong too hot to handle
and Murray clouted to left for two
stations, Krebs on third. Farrell was
out and Kite threw to second, who re-
turned the ball quickly and Krebs was
caught at the plate.

In the fourth Wilmington put two
more on storage when Sharp started
with a single to centre and while Bro-
die was out catcher to first, Sharp
scored on wild throw to third; Lohr
was out second to first and Brennan
was given life on error of short;
Jayes was then up and Brennan stole
second and scored on a passed ball.
Jayes finally going out short to first.
Rocky Mount was out in order, Far-
rell on fly to centre, Rapp third to
first and Ogara on fly to second.

Kite started the fifth with a bingle
to centre, but was forced on Wysong's
hit to third while Wysong and Nichols
were out on a double of the latter's
hit to short. After Burke was out
short to first, Conn swatted to left
for two bases and was sacrificed by
Smith, but Lambert flew to Brodie.

Brodie singled to right after Guer-
rant was out third to first and Sharp
flew to second in the sixth, but the
Oriole was caught off first and was
out. Krebs led off for Rocky Mount
with a bingle to centre, but was out
attempting second while Murray flew
to left and Farrell fouled to Kite.

Two were added by each team in
the seventh. After Lohr had fanned,
Brennan peeled the hide off one for
two bases to left and took third on
passed ball, scoring on Jayes' hit to
pitcher and the latter's error; Jayes
next took third on a passed ball and
Kite was given a constitutional; Wy-
song then bingled a neat one to right
and Jayes scored, but Kite was caught
at the marble, Nichols ending the
hope by flying to left. For Rocky
Mount, after Rapp flew to Guerrant,
Ogara was safe and went to second
on Brennan's wild throw to first;
Burke flew to centre and with two
down, Conn was safe on Nichols' er-
ror, after which Smith was given life
on four wide ones and Lambert sin-
gled to left scoring Ogara; Krebs next
hit to Wysong who threw home and
Conn scored on Kite's miff, Murray

REPUBLICAN WOOL PULLERS.

People who didn't want or expect a census job are not disappointed because the pie fell into the lap of Republicans, provided that the bunch picked out can really take a census with any degree of intelligence and correctness. We have seen census takers who hardly knew the back-door from the front door, but as the census is taken only every ten years and this one will cost \$10,000,000, or more perhaps, the masses of the people, regardless of politics, are mostly interested in seeing the work done right instead of its being made the occasion for handing out political pie.

The men who are selected to supervise the work of taking the census or who are to be census takers should be efficient and that is what the people have a right to ask in view of the importance of getting North Carolina's statistical record taken accurately and kept straight. The selections may be fairly good for aught we know but already some of them have been referred to as "political hacks." Be that as it may, some Republicans who got jobs and some who didn't, are proving that they are hackers all right. They are hacking at each other. The disappointed place seekers and their friends have sore spots which have caused them to squirm in such a way as to bring on fits of hilarity to spectators, if indeed it won't add to "the gaiety of Nations."

Since President Taft's announcement of the appointments, the Republican hackers and scrappers have got busy. They have rushed into print to reproach, rub it in and vilify each other. Long interviews and newspaper articles have appeared over a matter that looks like 30 cents, and if President Taft is susceptible to amusement and possesses a keen appreciation of the absurd and ridiculous he can come in off the golf grounds and roll over with hilarity. We fear, however, that his disgust will not give way sufficiently to enable him to enjoy the Wool Pullers' Minstrel Show, with Republican Chairman Adams as the interlocutor dodging the assaults of the disgruntled end-men.

President Taft surely will recall those remarks which he was to be President emitted at Greensboro. Some of the interviews and newspaper articles concerning this census rumpus are too long for us to copy, but a short editorial in the Charlotte Chronicle of Tuesday will suffice to show that something's doing in Possum Hollow. Under the title of "Scalping Knives Out," the Chronicle says:

"Of course, the announcement of Mr. Taft's appointments as supervisors has raised a row in the camp. The appointment of Mr. Killian, for this district, came as very much of a surprise to Mr. J. A. Smith, who had been resting easy under the assurance that Mr. Jake F. Newell would get the job. He claims that an agreement had been made to this effect and charges that State Chairman Spencer B. Adams is responsible for the miscarriage. This affair also gives Mr. Smith an evidently longed-for chance to take a documentary whack at Chairman Adams. The appointments for the fifth, eighth and tenth districts are yet to be given out, but it is understood that Republicans will get these jobs and there will be nothing for Democrats to do but to look on and enjoy the mix-up that is bound to come. Before it is all over, President Taft is going to wish that he had given every census job in North Carolina to a Democrat."

The hot-shot being hurled during these census hostilities involve charges of deception, trickery, treachery, two-face acts, etc. The North Carolina Republican goes on the injunction "Shoot, Luke, or give up your gun."

SOME POLITICAL AMENITIES.

Our esteemed Republican contemporary, the Greensboro Daily News, which takes pleasure in creating the impression that it's awful "hard times" when the Democrats are in power, recently remarked:

"The Raleigh News and Observer is giving the tobacco growers a good deal of advice at present. We seem to remember its advice to the cotton farmers a year or so ago to hold cotton for 15 cents a pound and that the said cotton went the other way."

Our esteemed but touchy Democratic contemporary, the Charlotte News, couldn't stay out of it, but lit in with this:

"And we seem to remember" that this was during the sunburst of Roosevelt prosperity—in that blessed era of "full dinner pails" when banks throughout the country were issuing script, mills and factories were closed down, and the bread lines being daily augmented. If our memory errs not it

was the Industrial News that besought the populace to whistle even though courage failed, in these bladsome days, of thrift and plenty when cotton went the other way."

O-u-c-h!

The Star frequently has labored painfully in its efforts to impress upon, teach to and inject into thoughtless, impetuous and rash individuals the extreme danger plainly and unequivocally implied in that ancient and hoary adage: "People who live in glass houses should not throw stones."

Now you see what's happened to the Greensboro News, which entirely overlooked the fact that Architect Roosevelt erected a Republican glass house so recently as 1907. Oh! Why on earth do some people persist in treading around so incautiously as to "put their foot in it"?

A Chicago dispatch on Tuesday says 100 young men have been dropped from the ranks of the University of Chicago because they "paid too much attention to social duties and too little to class work." Too many "social duties" also gradually work a fellow off the pay roll. A man ought to divide his time with his job.

A telegraphic item says a drink of ice water caused the death of a Milwaukee man. Some people will get it into their heads that the deceased must have switched off too suddenly from imbibing the liquid that "made Milwaukee famous."

Oh! you scuppernon grape with your russet jacket and juicy pulp! P. S.—They have a way of squeezing out the juice and making a delicious and alleged "soft drink" that will even make the father of prohibition "sit around all day."

"Live and let live" is an old adage. That's what we are doing in North Carolina. We live in the best State in the Union and will also let you live here where you can seize the opportunities that actually stare you in the face.

"Sandy Sniffle wants a divorce from his wife because she is always crying," says an Indiana contemporary. In North Carolina the clerk of court surely would be tempted to enter that case on the docket as "Sniffle vs Sniffle."

Once more we remark that the individual who lives in a glass house and throws stones is liable to reap as much trouble as Job had.

CURRENT COMMENT.

—In these days of pellagra it does our heart good to see how the press of the South has rallied around corn bread—Charlotte Observer.

—The movements of President Taft on his fall campaign over the country are being so minutely arranged that the church at which he will attend Sunday evening service while in Texas, November 8th, has been selected. The chances are that the pastor of that church will be fully prepared to give the presidential party a few things to think on.—Monroe Journal.

—Under the Alabama law no governor is eligible to any office until one year has elapsed since the expiration of his term as chief executive. As a consequence of this law the novel situation may soon be exemplified of a chief executive resigning his office to enter the race for another honor against the very man he appointed to that position. According to report Governor B. B. Comer, the original "railroad rate reform" man, intends soon to resign his office to campaign against John H. Bankhead for the senior senatorship.—Charlotte News.

—A dispatch to The Observer from Philadelphia, explaining the glut on that market of Southern watermelons, gives as a reason the fact that the North Carolina Legislature recently passed a law compelling railroad companies to furnish cars and equipment to carry all freight offered. In case no car was there to receive a shipment all the farmer had to do was to dump his produce on the station platform and charge the company the market price, which, after several lawsuits the company had to pay. "Since then," the dispatch goes on to say, "the Inter-State Commerce Commission has taken a hand in the matter and laid down the rule that if the produce did not realize more than freight charges the shipper would have to pay the difference. As a consequence the railroad company this year will be obliged to enter suit against a number of North Carolina farmers whose goods failed to pay the freight." This appears to be rather a hard ruling, but its justness cannot be challenged. We suggest that the watermelon growers enlist under the banner of Mr. Polly Peele, the cantaloupe grower of The Laurinburg Exchange, and establish sales agencies in the Northern markets for their products. As long as they continue the commission system of sales, the results are bound to be unsatisfactory.—Charlotte Chronicle.

—Newbern, N. C., Aug. 17.—The colored firemen from twenty-six cities of the State met today in the twentieth annual convention of the North Carolina State Volunteer Fire Association. It convened in the court house in this city. In welcoming them in behalf of the city, Hon. M. H. Allen paid a high tribute to this organization for its record when he said: "The bravest fireman that I have ever known was a colored man. When he dies the good citizens of Winston will erect a monument in honor of his." Enthusiasm ran high in the audience. In responding to the address of Hon. M. H. Allen, F. F. Chambers, vice president, said: "We deeply appreciate what the white people of this State are doing for our uplift. This organization is not for fishes and loaves, but it is our highest aim in life to rescue the perishing, save property and deport ourselves like men." In the afternoon and evening sessions much business was dispatched. The chief features of tomorrow's programme will be the parade, hook and ladder and hose wagon contests. By a unanimous vote the association meets next year in Winston-Salem.

—Winston-Salem Journal: It is understood that an immense spinning mill is to be erected in Winston-Salem within the near future. The capital is to be \$200,000, practically all of which, it is said will be furnished by local capitalists. This is but an evidence that Winston-Salem is going forward with strides more rapid than those of any other city in the State, and the addition of a yarn mill will give further diversification to the industries of the city, which already leads all other cities in the Carolinas in this respect. The new factory will give employment to several hundred people, and will add thousands of dollars every year to the wealth of the Twin-City.

Making History.

When Kinglake was writing his history of the Crimean war he received letters from all sorts of people concerned in the war. One day a letter with a deep black border came from two people in the colonies, husband and wife, describing their grief. Their only child had been killed in the Crimea. They wanted to have him mentioned in the "History of the Crimean War." Kinglake was touched and replied by post that he would do his best. If they would send him the necessary particulars. Again a letter, also black bordered, full of thanks, but with the following conclusion: "We have no particulars whatever to give you. He was killed on the spot, like many others, but anything you may kindly invent will be welcome. We leave it entirely to your imagination."—London Chronicle.

Taken Unawares.

Sir William Grantham was engaged as a political speaker in the days before he took his place on the bench and when he was plain Mr. Grantham. On one occasion, while he was delivering an address, a man got up in the audience and shouted out excitedly, "It's a lie!" "Thanks," said the future judge. "It's a lie!" shouted the excited one again. "You're a gentleman," said Mr. Grantham sarcastically. "It's a lie!" burst out his opponent again, carried away by his wrath, but the general laughter which arose at his answer recalled him to himself again, and he sat down discomfited.—London M. A. P.

Attractive Variable Route—Excursion Fares by the

ATLANTIC COAST LINE.

The Atlantic Coast Line has issued a folder announcing attractive excursion fares to a number of Eastern resorts, including Niagara Falls, Montreal and Quebec, going and returning by the Atlantic Coast Line as far as Washington, but by widely variable routes north of that city, that is, a passenger can select almost any route from Washington to destination and return by almost any other regular route.

These rates open up a new method of traveling and will no doubt be largely patronized, as New York, Boston and nearly all the Eastern resorts can be reached by one of these "Variable Routes," or what may be more properly termed "Circular Tour," tickets especially as liberal stop-over privileges will be allowed.

One of the folders giving the routes in detail with rates and other information may be obtained by calling on or addressing the undersigned.

DO YOU PATRONIZE HOME INDUSTRIES?

Those of you who have been making your purchases away from Wilmington should think before patronizing mail order and houses away from home any further.

Who sympathized with you when your little girl was sick? Was it the mail order house?

Who carried you last winter when you were out of a job and had no money? Was it the mail order house or was it your home merchant?

When you want to raise money for the church or for some needy person in town, do you write to the mail order house, or do you go to your home merchant?

How much does the mail order house give towards keeping up sidewalks or paying the minister's salary?

When you were sick how many nights did the mail order house sit up with you?

When you had to raise money to pay your gas bill, did you get it from the mail order house or a home merchant or contractor?

When your loved one was buried, was it your home merchant who dropped the tear of sympathy and uttered the cheering word, or was it the mail order house?

A FIGHTING WHALE.

Made Splinters of the Small Boats and Sank the Ship.

Among the tales of the whale fishery told by John R. Spears in "The Story of the New England Whalers" is that of the loss of the Ann Alexander of New Bedford. This ship was on the "offshore grounds," west of Chile and Peru, when on Aug. 20, 1850, a "pod" of whales appeared, and three boats were lowered. Captain John S. Debiols going in one of them. The mate's boat soon struck one of the "pod," but the monster instantly turned with jaws open, and the men fled overboard just in time to save their lives. A moment later the whale bit the boat to pieces.

Captain Debiols at once pulled in, picked up the boat's crew and shifted a part of them to the second mate's boat. Then both the captain and second mate started to attack the whale, which had been busy meantime biting at the pieces of the boat it had destroyed. In the usual course a whale thus engaged would not have noticed the approach of the boats for a second attack, but this one had its eyes open, and it turned to meet the enemy more than halfway.

Rushing forward with a force and speed that no boat could escape, it grasped the second mate's boat, as it had that of the mate, and literally made kindling wood of it.

When Captain Debiols had once more picked his men from the sea he headed for the ship, and when there he sent the mate to gather up the oars and such other debris as might have escaped the fury of the whale. In his view it was his duty to fill his ship with oil and not to "whale for glory," as persistence in fighting a whale of this kind was sometimes called.

The mate, however, was of more reckless disposition. He managed to get within range of the whale and thrust a lance into it. Unfortunately, however, he failed to reach a vital point, and the whale, ignoring the small boat, made a dash at the ship. He struck her abreast of the foremast and crushed in her side. She sank so quickly that the crew was unable to secure anything, and they would have perished speedily in their open boats but for the fact that they were picked up by another whale ship.

SALTING BABIES.

An Old World Practice That Goes Back to Bible Times.

"Salting" newly born infants, a practice that dates far back to Biblical times, still obtains in many parts of the old world. The Armenians in the Russian government of Erivan cover the whole surface of the babe's body with fine salt, especial care being taken with the interstices between the fingers and all depressions, such as the armpits and the bend of the knee, so that no point shall remain unsalted.

The unhappy infant is left in the salt for three hours or longer and is then bathed in warm water.

The Armenians of some districts, having abandoned the practice, are called "unsalted" and are despised by the others.

The modern Greeks also sprinkle their babes with salt. If an enlightened mother protests the midwife is ready with the objection, "But if it isn't salted it will be puny and will never amount to anything."

If this salting process is carried on to excess the poor babes don't stand it at all. The skin becomes as red as fire, the irritation is intolerable, and the child dies in convulsions. Yet there is a mountain tribe in Asia Minor that mercilessly salts its newborn babes for twenty-four hours, which shows that the limits of human endurance are wide in some cases. This ancient custom is still in vogue in many parts of Germany, but the rites are merely symbolical. In one district a little salt is rubbed behind the child's ears, in others a pinch of salt is put on the tongue or a little paper of salt is inserted under the garment. It gives understanding, the people say, and wards off evil spirits.

The action of salt in keeping meat sound no doubt is the reason that this strengthening and sustaining power was ascribed to it. The usage became common in eastern countries, and it was not entirely confined to them. The prophet Ezekiel, referring to the degeneracy of Jerusalem, says:

"Neither wast thou washed in water to supple thee; thou wast not salted at all nor swaddled at all."

To many oriental tribes this means a grave omission of parental duty.—St. Louis Post-Dispatch.

Sustaining Life.

Mrs. Andrew Crosse in her "Reminiscences" describes an old nurse born at Broomfield, England, who lived to be nearly a hundred. "All her life she had eaten a dew bit and breakfast, a stay bit and dinner, a nommet and crummet and a bit after supper, eight meals in all. Besides this it was her invariable custom to mix together all the doctors' stuff left after any illness in the house and swallow it on the principle that what had cost money should not be wasted."

S.S.S. CURES ECZEMA, ACNE, TETTER ETC.

While Eczema, Acne, Tetter, Salt Rheum, etc., are troubles which affect the skin, their source is far deeper than the outside cuticle. These affections are caused by irritating humors, or uratic acid in the blood. Such impurities inflame and irritate the delicate network of fibrous tissue which lies just beneath the surface of the outer skin, and the inflammatory discharge thus produced is forced out through the pores and glands, and is continually kept up while the blood remains infected. This exudation causes the formation of scales and crusts so often seen in Eczema, and when they are scratched off the flesh is left raw and more susceptible to other infection. It can very readily be seen then that to produce a cure the circulation must be purified and cleansed. This S.S.S. will do. It goes down to the very bottom, removes all humors and impurities, neutralizes the excessive acids of the system and in this way removes the cause of disease. Local applications can only soothe the irritation and assist in keeping the skin clean; they never produce a cure because such treatment does not reach the blood. S.S.S. restores to the thin, acid blood all its lost properties, makes it pure and rich and enables it to nourish the skin and keep it soft, smooth and healthy. RAFFERTY-FREDERICK NUPTIALS.

Wedding of Popular Young Couple So-
lemnized Yesterday Afternoon.

A marriage of much interest to
many friends in this city and else-
where was solemnized at 5:30 o'clock
yesterday afternoon at the home of
the bride's parents, Mr. and Mrs. Geo.
W. Frederick, 420 Chesnut street,
when their attractive daughter, Miss
Irene, became the bride of Mr. James
M. Rafferty, formerly of Wilmington
but now of Baltimore, Md., the cere-
mony being performed by Rev. Geo. S.
Bearden, pastor of St. Matthew's Lu-
theran Church, in the presence of a
number of relatives and friends. The
beautiful ring ceremony was used.

The ceremony was followed by a
reception at the home of the bride's
parents at which the best wishes of a
host of friends were extended the hap-
py couple, who left on the 7 o'clock
train last evening for Baltimore, where
they will reside.

The bride entered the parlor on the
arm of her father, Mr. Geo. W. Frede-
rick, who gave her away. Mr. John
W. Frederick acted as best man and
the lady attendants were Misses Adna
Vivian Robbins and Annie Elizabeth
Frederick, the latter a sister of the
bride. The bride was becomingly
gowned in white silk trimmed with
real lace and buttons and carried a
bouquet of white carnations. The
bridesmaids wore blue silk and car-
ried bouquets of asters. The home
had been tastefully decorated for the
happy event in potted plants and ferns.

A large number of beautiful and val-
uable wedding presents were received,
attesting in a measure the popularity
of the young couple. The bride is a
most attractive young lady and num-
bers her friends by the hundreds. The
groom resided in Wilmington for six
years until last March when he return-
ed to Baltimore and opened a mer-
chant tailor's business for himself. Mr.
and Mrs. Rafferty will reside at 2207
East Baltimore street, Baltimore.

ARRESTED IN MONROE.

Young White Man Charged With
Abandonment—Trial Today.

Constable W. B. Savage left yester-
day afternoon for Monroe, where he
goes for Herbert Porter, a young
white man, arrested by a Union county
officer on a warrant sworn out be-
fore Justice Sykes charging him with
abandonment. His young wife, to
whom he was married only a few
months ago, is the complainant in the
case. She alleges that shortly after
their marriage she left her husband
have \$100 and he went to Monroe to
secure a home for them. He is a fire-
man on the Seaboard Air Line. Time
went by and she heard nothing from
him. Finally she went to see him. He
gave her to understand that he did
not intend to live with her or pro-
vide for her support. The warrant
followed. The investigation will prob-
ably take place before Justice Sykes
at 4 o'clock this afternoon.

Will Repair Jacob's Run Sewer.

The Mayor and members of the
Sewerage and Streets and Wharves
committees of the Board of Aldermen
held a conference in the Mayor's of-
fice yesterday morning for the purpose
of considering the matter of repairing
the Jacob's Run sewer which became
obstructed several days ago. After a
discussion the chairman of the Sewer-
age committee was instructed to make
the necessary repairs, which will cost
in the neighborhood of \$150. The
sewer begins about Fourth street and
goes to the river by a zig-zag route.
It is one of the first sewer lines laid
in the city.

LOCAL DOTS.

—From information received at the
local port three steamers have been
chartered to load cotton here for for-
eign markets during the month of
September.

—Judge W. F. Brown, of Carrollton,
Ga., is spending some time in the city
and at Southport as the guest of his
son, Capt. Earl I. Brown, United
States Corps of Engineers.

—A communication from Whiteville
is not published for the reason that
it is accompanied by no name, "not
necessarily for publication, but as a
guarantee of good faith," etc.

—A deed was filed for record yester-
day transferring from R. T. Boyd
and wife, of Hamlet, to R. T. Finger
and T. S. Cooper, of Hamlet, for \$350,
lot in the proposed village of St. Jo-
seph, Federal Point township, 100x100
feet in size.

—The police have received an intima-
tion that Rowland W. Youngs, want-
ed here for selling whiskey in viola-
tion of the prohibition law, is in Pet-
ersburg, Va. The report has not yet
been confirmed.

—Mr. R. C. Applewhite, of Cronly,
would be glad of any information as to
the whereabouts of Andrew Johnson,
a colored Baptist minister, who dis-
appeared from Fewberlin, N. C., on
Sunday, August 15th.

—The schooner Hibernia, Captain
McDade, which discharged the large
cargo of molasses at the local port to
the C. C. Covington Company, cleared
yesterday for Crandall, Fla., where she
will receive lumber for Barbados. The
vessel is by C. D. Maffitt.

—Before Justice Harris yesterday
the personal encounter between Mr.
Hugh Wallace and Mr. G. J. McMillan,
which took place Tuesday afternoon,
was investigated. Mr. Wallace was
let off upon payment of costs. There
was no charge against Mr. McMillan.
—Mr. Fred T. Skipper, clerk of the
Recorder's Court, left last evening for
Brooklyn, N. Y., where he will spend
two weeks as the guest of his brother,
Mr. Thos. Skipper, 385 Franklin Ave.
During Mr. Skipper's absence Justice
George Harris will act as clerk of the
Recorder's court.

—On account of the derailment of
one car of the Wilmington-bound
freight train at Stedman, on the A. &
Y. division of the Coast Line yester-
day, a transfer of passengers, mail and
express had to be made from the Fayette-
ville train yesterday evening, caus-
ing a delay of several hours in reach-
ing the city. No one was hurt.

PRIVATE SCHOOL INSTITUTED.

Dissatisfied Element in No. 12 Met
and Organized.

A number of citizens residing in
school district No. 12 met at Mr. Wm.
Gregerson's store, on the Castle
Haynes road, Tuesday night and de-
cided to organize a private school dis-
trict. This action is the result of the
Board of Education's refusal to locate
the new school for No. 12 near the old
building but instead accepted a site
offered by Mr. Moses Horne about a
mile away. The following regarding
the meeting was written by Mr. N. T.
Maxwell, who requests its publication:
"The citizens residing on the Cas-
tle Haynes road held a meeting at Mr.
Wm. Gregerson's store Tuesday evening
and instituted a private school which
will be known as the North
Wilmington Private School and will
occupy the building which has hereto-
fore been used by the public school
in district No. 12."

"The meeting was largely attended
by patrons who are enthusiastic and
who propose to make the movement a
permanent success. A board of cap-
able men were selected to carry on the
work of the school and the necessary
funds were raised to put the move-
ment on a good running basis."

"Aside from those who have child-
ren to go to school there were a num-
ber present who voluntarily offered
substantial contributions which were
heartily appreciated."

"There were 28 school children rep-
resented at the meeting and were en-
rolled and others are expected to join
the ranks before the opening of the
school."

"A competent teacher will be em-
ployed at once and it is expected that
the school will open in the early part
of September."

"With such zeal and energy as is
being manifested in this project there
can be no doubt as to its success and
to see the time is not far distant
when the citizens of this neighborhood
will have an institution in their midst
of which they may be justly proud."

MISTRIAL ORDERED

Magistrate's Jury Was Unable to
Agree in a Civil Action.

The trial of a civil action entitled
Jos. D. Smith against I. Boufarah, in
which the plaintiff was suing for \$75
alleged to be due for the rent of the
store at northeast corner of Princess
and Second streets for the month of
August, the defendant having moved
to another location, took place before
Justice Harris yesterday morning.
The hearing was before a jury com-
posed of Messrs. T. W. Wood, Fred
Griffith, Oscar Lawrence, R. C. Banks,
J. H. Dew and L. H. Burnett. The case
was given the jurors shortly after 12
o'clock and at 4 o'clock in the after-
noon they had failed to agree. Justice
Harris withdrew a juror and a mistri-
al was ordered. The jury stood
four to two in favor of the plaintiff.
The case will be heard for the second
time Friday morning beginning at 9
o'clock and another juror will be sum-
moned. The defendant contended
that he moved after notification to the
owner, Hon. John D. Bellamy and C.
D. Weeks, Esq., represent the defend-
ant and Marsden Bellamy, Jr., Esq.,
the plaintiff.

Patrolman Leon George had been
summoned as a juror but failed to ap-
pear. Justice Harris entered a fine
of \$10 against him and he will be cited
to show cause why he should not pay
the amount.

THE TRUCKERS' ASSOCIATION

Thirteenth Annual Meeting Held Yes-
terday—Reports of Secretary,
Treasurer and Other Offi-
cers—Election of Boards.

Following meetings of the Executive
Committee and Board of Directors
yesterday morning, the 13th annual
meeting of the stockholders of the
East Carolina Truck and Fruit Grow-
ers' Association was held yesterday
afternoon in the office of the Associa-
tion in the Masonic Temple. While
the attendance was not large, it was
very representative of the trucking in-
dustry throughout the district and
those present were enthusiastic over
the prospect for the coming season.

The Executive Committee met at 10
o'clock yesterday morning, President
Wm. E. Springer presiding and Secre-
tary H. T. Bauman at his post as sec-
retary. The session was entirely tak-
en up with the formulation of the re-
port to the Board of Directors which
met immediately thereafter, the same
officers presiding. The Directors re-
ceived the report of the Executive
Committee, also those of the secre-
tary, attorney and that of the treasurer,
Mr. Samuel H. Strange, of Fayette-
ville. The reports were all received,
those of the executive committee and
secretary being adopted as the Direc-
tors' report to the stockholders in the
afternoon.

The meeting of stockholders was
called to order at 3 P. M., President
Springer presiding and Secretary Bau-
man in attendance. The report of the
Directors was read and adopted after
which several resolutions were offered
by different members looking to a
betterment of conditions and these
were unanimously adopted after dis-
cussion. The stockholders then enter-
ed upon the election of a Board of Di-
rectors with the result that all the
old Board were re-elected except Mr.
W. A. Brown, of Rocky Point, who has
retired from trucking, and Mr. J. S.
Westbrook, who declined re-election
and Mr. D. E. Boney, of Wallace, was
chosen in his stead. After the meet-
ing of the stockholders the new Board
of Directors met and Mr. William E.
Springer was re-elected president; Mr.
J. A. Westbrook, of Mount Olive, vice
president; Mr. H. T. Bauman, secre-
tary; and Mr. S. H. Strange, treasurer;
executive committee, Messrs. J. A.
Brown, Chadbourne; D. Boughner,
Grist; J. A. Westbrook, Mount Olive;
W. L. Hill, Warsaw, and Wm. E.
Springer, of Wilmington. The execu-
tive committee subsequently met and
re-elected Mr. Springer chairman and
Mr. Bauman secretary.

Executive Committee's Report.

The report of the executive com-
mittee to the stockholders sets out that
with over 1,200 acres increase in
strawberries the past season over a
year preceding, only 50,000 crates in-
crease in the output was obtained.
Many causes for this were assigned
among them the very open winter
which caused the plants to bloom and
fruit too early for the frosts and free-
zes of the early Spring, growers not be-
ing provided with straw to protect
them, resulting in indifferent ripening
at first, early shipments having de-
moralized the market. Those that
came on later were of fairly good
stock and profitably marketed. An-
other cause was undoubtedly the lack
of knowledge on the part of the aver-
age grower of the use of proper fertil-
izers and cultivation and ignorance of
the soil best adapted to the fruit.
The report also stated that the Asso-
ciation has had experts from the State
and United States Agricultural De-
partments sent into the territory to
analyze the soil, confer with the grow-
ers and instruct them in all that is
necessary to produce a higher grade
berry.

The lettuce crop was comparatively
a failure this season and other vegeta-
bles only a partial success. Potatoes
were in good demand and good prices
were obtained. Cantaloupes were
marketed at a fair price but the crop
has been a failure. Transportation and
refrigerator service was reported very
satisfactory indeed and complaints as
to the express service were not so
general as heretofore, though there is
yet much room for improvement. The
telegram and bulletin service during
the shipping season was much cur-
tailed for economy's sake but that
part of it maintained was very effec-
tive. No agents were appointed in the
Northern and Western markets dur-
ing the season, there having been no
fruit to ship. From all reports re-
ceived the absence of these agents
a, the principal receiving points, re-
sulted most seriously for the grower
in many cases. These agents are the
men on guard and it is only through
them that the people get a "square
deal" at the other end in many cases.
The failure of the growers and ship-
pers to contribute to the support of
the Association for the past two years
has necessitated drawing on the small
reserve to keep the Association alive
and now for the first time in the Asso-
ciation's history, it is confronted with
a small deficit. By cutting out the
South Rocky Mount service the past
season, sufficient funds would have
been left to have met all obligations,
but as this was the only protection
left, the committee did not feel just-
ified in closing that important station.
The efforts of the committee with the
Legislature to put the strawberry and
truck industry under the protection
of the State was, through ill-advised
opposition, defeated. The committee
feels that had the bill presented
been passed, the growers
would have derived many benefits
therefrom and certain revenue
would have been collected from
a class of people who could
and would have paid it, with-
out any vigorous protest. The
committee does not discuss the mat-
ter further, only reaffirming its po-
sition as doing all in its power to sa-
eguard the best interests of the grow-
ers at all times and under all circum-
stances.

The treasurer is commended for the
accurate and business-like manner in
which he has kept his books and per-
formed his duties. The report also
commends the attorney of the Asso-

clation, Robert Ruark, Esq., who has
always had the interests of the Asso-
ciation and the growers at heart and
has given his best endeavors for them,
legal and otherwise.

The report says that the commer-
cial and transportation interests of
this section are showing a lively inter-
est in the growers and the
work of the Association and with the
proper support and co-operation of all
truckers, a brighter and more prosper-
ous future awaits all. The committee
trusts that truckers and shippers will
take in the full significance of this
community of interests and show by
their loyal support of this association
that they are fully alive to the situa-
tion.

Closing the report the committee
calls attention to and commends high-
ly the official work of Mr. H. T. Bau-
man as secretary of the Association.
The great value of his work, it is stat-
ed, lies in the information and experi-
ence which he has gained during his
13 years' connection with the straw-
berry industry in Eastern North Caro-
lina. From the records which he has
preserved during this period, it is pos-
sible to trace the movement of almost
every crate of strawberries and to
show where they were marketed and
the results. If this information could
be tabulated and put in concise form
and printed, it would supply a source
of information regarding the strawber-
ry industry of great value to farmers
and investors throughout the section.
This information would disclose to the
public the fact that the strawberry
industry has been more potent than
any other instrumentally in develop-
ing this section of the State.

Other Reports.

The 13th annual report of Secre-
tary Bauman contains a mass of infor-
mation, some of which has already
been published in connection with the
recent movement by the business men
and others looking to the bringing
about of better conditions of culture
in this section of the State. The to-
tal acreage in berries the past season
was 6,178 1-4, an increase of 1,
394 3-4 acres over 1908. This increase
was 566 3-4 acres in the W. & W. 794
in the Chadbourne and 34 in the A.
& Y. section. The past season there
was an increase of 222 refrigerator
cars from the belt with a decrease of
118 crates by express. Last season
the average yield per acre was 61
crates while this year it was only 56.
The average net returns this season
were somewhat less than last year,
owing in large measure to the stock
not being so good and to other causes.
The transportation this season was
the best ever given while the refrig-
erator service was in every way satis-
factory. The equipment was in good
order and more than enough cars
were in the territory to take care of
the business. The secretary and busi-
ness agent quotes specific instances of
the great handicap in marketing the
crop by reason of the inability of the
Association to have agents in the
receiving points during the shipping
season and says that there is no esti-
mating what the losses of the growers
amounted to by withdrawing this pro-
tection. A tabulation is given show-
ing the magnitude of the strawberry
industry in this section during the
past 13 years and in closing his report
the secretary extends his thanks to
the officers, directors and executive
committees of the Association for their
uniform courtesy and considera-
tion and for their support of all his
efforts making for the success of the
growers and the Association.

Mountain and Seashore Excursions.

The annual seashore and mountain
excursions on all Southern railroads
went into effect yesterday and travel
within the next few days is expected
to be quite heavy, extra coaches being
provided on all regular trains. The
excursions have been widely adver-
tised and tickets will be good, leaving
destination on regular trains not later
than midnight, Sept. 2nd, 1909. Very
low rates are offered both by the
Coast Line and Seaboard from all
South Carolina and Georgia points to
Wrightsville Beach and a number of
visitors are expected.

THE RECORDER'S COURT

Josh Simon, Syrian, Found Not Guilty
of Forcible Trespass.

Recorder Furlong held a rather in-
teresting session of his court yester-
day morning. Josh Simon, a Syrian
merchant, charged with forcible tres-
pass and assault upon James Brown,
a Frenchman, sent up from Justice
Harris' court, was found not guilty
and discharged. The trouble between
Simon and Brown has been printed
and reprinted in The Star several
times and is familiar to the readers
of the paper. Brown testified that
Simon forced him to take off the suit
of clothes he was wearing and give it
to him as collateral for the payment
of costs in a criminal action before
Justice Bornemann and for the recov-
ery of a suit of clothes in a paw
shop. The criminal action in the ju-
stice's court against Brown was dis-
missed at the cost of the prosecutor,
who swore he could not make out a
case. Yet the prosecutor demanded
the payment of the costs from Brown,
also he held against him \$2 paid to
the pawn broker for the recovery of
a suit of clothes, which was in contro-
versy before Justice Bornemann. Sim-
on testified that Brown was perfectly
willing for him to take the clothes and
hold them until he could raise \$5 for
him. The defendant was represented
by Wm. J. Bellamy, Esq., who laid
stress upon the statement of Simon
that Brown had told him that he was
not a believer in the Christian religion.
Brown testified on the stand that he
was a Christian and believed in the
Bible. So the entire case narrowed
down to a question of veracity.

The case against Joe Hill, colored,
charged with the larceny of a number
of household articles from Annie Ellis,
colored, Saturday night, was found
not guilty. The case was sent up
from Justice Harris' court. Geo. L.
Peschan appeared for the defendant.
Fred McDaniel, colored, charged with
disorderly conduct at Wrightsville
Beach, was released. John Bethea,
colored, was found guilty of disorderly
conduct and required to pay \$5 and
costs. K. A. Bolton, a white man, was
tried on two charges—drunkenness
and carrying concealed weapons, a
pistol having been found on his person
when he was arrested Tuesday night.
He was fined \$25 and taxed with costs
for carrying the weapon and in the
drunkenness case was let off with
costs.

MODERN COUNTY SCHOOL.

Erection of New Building For District
No. 12 Begins Monday.

The contract has been awarded and
plans agreed upon for the erection of
the new school building for District
No. 12 and the work will begin next
Monday, with Mr. C. D. Morrill, as
contractor.
The building will be modern in all
its appointments and will be one of
the best and most convenient in the
county. It will cost \$1,000. The school
will be erected in about the center of
the district and about one-half a mile
from Wrightsville Station, on the
Castle Haynes road, four miles from
the city. Efforts will be made to have
it completed for the beginning of the
school term the first Monday in Oc-
tober.

The erection of this new building
was agreed upon at the last meet-
ing of the County Board of Education.
Its location will be half mile nearer the
city than the old building; two and
one-half miles from the southern end
of the District and three miles from
the northern end.

The committee is composed of Mes-
srs. G. W. Trask, chairman; C. E.
Kerr and J. H. Johnson.

INCINERATOR IMPRACTICABLE

City Will Hardly Purchase Crematory
For Refuse Matter.

While no official action has as yet
been taken, it is unlikely that the city
will purchase an incinerator for the
disposal of the city refuse matter. The
concensus of opinion of the members
of the Board of Aldermen seems to be
that an incinerator would not prove
practical for the purposes for which
it was suggested that it be purchased.

Mr. Charles E. McKee, of Minneap-
olis, Minn., representing the Decaire
Incinerator Company, was here Tues-
day in conference with the Mayor and
the members of the aldermanic body
relative to the cost and practicability
of installing an incinerator here. It
would cost between \$35,000 and \$40,-
000 to install a plant similar to those
used in some of the other cities the
size of Wilmington and it is pointed
out by the Mayor and some of the
members of the Board that the matter
that it is desired most to destroy
could not be burned very satisfactorily.
They state that an incinerator would
be all right for trash and garbage, but
they do not think the people of the
city would favor the expenditure of
\$35,000 or \$40,000 for a disposal plant
that would not consume all refuse mat-
ter.

PHONOGRAPHIC DICTATION.

Latest Device Installed in Offices of
Public Stenographer Harris.

Mr. Meares Harris, the well known
public stenographer with offices at
114 Princess street, through Mr. H. S.
Storr, of Charlotte, has just installed
in connection with his already well
equipped plant one of the latest Ed-
ison electrical business phonographs
by means of which work in his offices
will be greatly facilitated. By use of
the new machine, dictations may be
taken at the rate of as high as 300
words per minute and then transcrib-
ed at will. Mr. Harris finds that the
machine works eminently satisfac-
torily and that it will be of great as-
sistance to him and his office force in
the rapid dispatch of business. With
the new method of dictation, it is possi-
ble for him between sessions of court or
other hearings, to go to his office, dic-
tate his notes of the morning in a
short time, return to the next sitting
while an assistant in the office is
transcribing from his notes of the
morning. Mr. Harris by prompt and
accurate work has built up a large
business and with the improvements
being added from time to time, there
is now no better equipped offices of a
public stenographer in the State.

BEFORE JUSTICE BORNEMANN

Three Minor Cases Were Disposed of
Yesterday Morning.

Three minor cases were heard in
Justice Bornemann's court yesterday
morning. The case of Mrs. M. J. Pow-
ers against Rock Williams, colored, an
action for the non-delivery and deten-
tion of seven loads of cross-ties and
one load of blocks, which the plaintiff
alleged the defendant took from her
place while she was in jail, came up
for final hearing. There was no evi-
dence in the opinion of the justice to
show that Williams had carried away
the material and he was discharged.
Mrs. Alice Rogers, who indicted her
husband for assault and battery, with-
drew the warrant and paid the costs.
Larry Ross, colored, was required to
pay costs in a case against him for
hugging Ada Simmons, colored,
against her will. It appeared that
Ross was a frequent visitor to the
woman's house, but she had grown
tired of his affections, hence a warrant
was sworn out charging him with as-
sault.

REUNION OF BLUE AND GRAY STATE NURSES' ASSOCIATION

Address of Capt. R. W. Price, Secretary, to the Confederate Survivors of Fort Fisher—Reunion at Utica, N. Y.

To the Confederate Members of the Fort Fisher Survivors' Association. Comrades:—There will be a reunion at Utica, N. Y., Sept. 7th, 8th and 9th to which you are invited as the guests of the Northern Veterans. The following invitations have been received:

"To the Southern Officers and Members of the Fort Fisher Survivors' Association:—

"In recognition and appreciation of the hospitality and fraternal manner in which the 'Boys in Blue' were entertained by you in Wilmington, N. C., in 1907, the 117th New York Volunteers' Association hereby extends a cordial invitation for you to join them in another reunion of the 'Blue and Gray' at Utica on the 7th, 8th and 9th, of September next. The city officials of Utica and the various civic organizations of the city join with us in this invitation and will do all in their power to render the occasion pleasant and profitable to all who attend.

"G. W. SHARP, President.
"J. J. GUERNSEY, Secretary."

"R. W. Price, Secy., Wilmington, N. C.

"Dear Comrade:—You are already in receipt of an invitation from the 117th N. Y. Volunteers, which you have accepted to join them in a reunion of the 'Blue and Gray' in our city, Sept. 7th, 8th, and 9th.

"Representing the Onondaga County Veterans' Association, consisting of 17 G. A. R. posts, as their president, I am instructed to say to you that we are already anticipating your coming with a deal of pleasure, and will assist our good comrades of the 117th in making your stay with us at that time enjoyable and hope many of your members will come. Also that you bring many of your ladies with you to meet the good ladies of our city, to the end that, when the reunion is over, we part company, and you must go back to your homes, every heart will be reassured of the brotherhood of man and North and South go hand in hand.

"Sincerely yours,
"D. C. HURD, President."
Utica Chamber of Commerce.

Utica, N. Y., July 30th, 1909.
"Mr. R. W. Price, Secretary, Wilmington, N. C.

"Dear Sir:—The Utica Chamber of Commerce learns with great pleasure that the Confederate Survivors of the famous battle of Fort Fisher have been invited to a 'love feast' with the wearers of the blue, to be held in Utica Sept. 7-8-9.

"On behalf of the business and professional interests of Utica, we urge you to come in large numbers, but let us add just one wee bit of advice. Close up what business affairs you may have in Wilmington before you leave it, for once you come to Utica we hope you will wish to stay.

"Anticipating with keenest delight the pleasure of gripping hands with our good friends from the Southland in early September, I am, faithfully yours,
GEO. A. FRISBIE, Pres."

From a number of private letters from our Northern Comrades, I learn they are making preparations to give you a royal entertainment and all urge you to go and take your lady friends. The following rates have been named by the railroads to Utica and return from stations named:

Station	Rate	Station	Rate
Wilmington	\$25.25	Wilmington	\$27.95
Whiteville	26.40	Maxton	27.95
Red Springs	25.05	Fayetteville	27.10
Chadbourne	26.45	Goldsboro	25.90
Cerro Gordo	27.15	Fair Bluff	27.00
Kerr's	25.55	Garland	28.00
Wallace	24.40	Magnolia	26.80
Warsaw	23.90	Clinton	26.95

I suppose the tickets will be on sale at stations on S. A. L. You can inquire of your local agent on this line and get rate. The amount should be about the same as above.

The route via New York will be over the West Shore or New York Central Lines to Albany and tickets will be good to return by the Hudson River steamers, Albany to New York.

The other route is via D. L. & W. R. R. and is shorter.

Tickets are to be placed on sale Sept. 4th and are good to return in 15 days from date of sale.

Those comrades leaving from here or along the line of A. C. L. will leave on night train Sept. 5th, arriving in Utica early on the morning of the 7th.

Comrades living in Western North Carolina are advised that they can join us in Washington, D. C., on morning Sept. 6th and can procure tickets to Utica and return to Washington at \$15.65 for the short route and \$18.35 via New York.

As our friends in Utica should be kept posted as to how many they may expect to attend, it is desirable that those contemplating going advise me of the fact as early as possible. Turn out boys and let us go and have a good time.

R. W. PRICE, Secretary.

Special License Taxes.
Patrolman Evans has been assigned the task of visiting all places of business in the city to ascertain whether or not the different persons, firms and corporations have paid the special license tax for the present quarter. The delinquents and new business houses are being notified that unless payment is made immediately action will be taken against them. Mayor MacRae stated yesterday afternoon that those who had not paid by the time Mr. Evans completed his rounds would be indicted and cited to appear before the Recorder for trial. The penalty for violating the special tax ordinance is a fine of \$25.

Annual Meeting Being Held at Wrightsville Beach—Business Session, Reception and Public Meeting.

With a fairly good attendance of members from many parts of the State, the seventh annual convention of the State Nurses' Association of North Carolina convened in the assembly hall of Tarrymore Hotel, Wrightsville Beach, yesterday morning. The features of the opening day were a business session, a reception in the afternoon and a public meeting last night.

At 9 o'clock yesterday morning the board of directors held a meeting and considered a number of important matters, some of which will probably come up in the convention later in the form of recommendations, and at 10 o'clock the enrollment of members and the payment of dues was started. The registration book showed that among the nurses in attendance were: Miss Constance Pohl, Winston-Salem, president; Miss Henderson, Winston-Salem, acting secretary; Miss Broughton and Miss Stafford, of Winston-Salem; Miss Dunn, Raleigh; Miss Mainor, Durham; Miss Turner, Rocky Mount; Miss Butler, Fayetteville; Miss Williams and Miss Lamb, Charlotte; Miss Rugg, Durham; Miss Stamp, Miss Lowery, Miss Houston, Miss Pettway and Miss Toomer, Wilmington; Miss Ferguson, Durham.

When the meeting was called to order at 11 o'clock the president, Miss Pohl, made a brief address in which she extended cordial greetings to the delegates and made reference to the work of the association. Prayer was offered by Rev. Thos. P. Noe, rector of the Church of the Good Shepherd, following which the roll was called and the minutes were read by Miss Henderson, of Winston-Salem, acting secretary. The report of the directors, dealing with the management of the business affairs for the past year, was read and showed the association in a healthy condition. After the reading of the report of the treasurer, Miss Lillie H. Cowan, of Durham, the president named the nominating committee as follows: Miss Stafford and Miss Broughton, of Winston-Salem, and Miss Butler, of Durham. The following papers were on the programme to be read at the session: 'The Preparatory Course,' Miss Mary L. Wyche, Durham; 'Directories for Nurses,' Miss Lillie H. Cowan, Durham; 'The Meeting at Minneapolis,' Miss Mary Wyche, Durham.

At 5 o'clock yesterday afternoon the visitors were entertained at a tea and reception at the James Walker Memorial Hospital, given in their honor by Miss Grace Stamp, the very capable head nurse in the institution. A special car was provided to carry the visitors from the hotel to the hospital and return. The reception took place on the broad back porch of the nurses' home, which had been most attractively decorated with Japanese lanterns, palms and ferns. The punch bowl was on a large table in the center, the table being decorated very effectively with grape leaves. The punch bowl was gracefully presided over by Mrs. Wm. Pulliam. The graduate nurses served dainty refreshments. The happy event lasted until 6:30 o'clock when the visitors returned to the Tarrymore Hotel for the occasion a most enjoyable one.

Public Meeting Last Night.
The public meeting in the assembly hall at Tarrymore Hotel last night was attended by a goodly number of townspeople as well as by local and visiting nurses. The meeting was presided over by Col. A. M. Waddell, who expressed the hope that the Association would meet in Wilmington again soon. Prayer was offered by Rev. Thos. P. Noe, after which Dr. Joseph Akerman, city superintendent of health, was introduced and delivered the address of welcome. Dr. Akerman spoke in his usual able manner and extended to the visitors a most hearty welcome to the beach and to Wilmington and expressed the hope that the sojourn here would be both pleasant and profitable. He touched briefly upon several matters which he deemed of vital importance to the members of the Association. He thought that there should be a sharp distinction between the trained and untrained nurses and this could be brought more forcibly before the public through the local and State Associations than by any other means. He called attention to the fact that there is a tendency among the nurses to underestimate their important place in the community in which they live. The nurses have the opportunity to do a vast amount of good in the education of the people along sanitary lines. They can do this work much better than the physician, who is in the afflicted home only a short time, whereas the nurses are constantly there during the illness of her patient. He considered that the nurse who stopped with care of her patient had done only half of her duty. He also spoke of the opportunity the nurses have of studying the various diseases in all of their phases and stated that through the nurses the physician secured much valuable information in the treatment of his patients.

Dr. Harlee Bellamy read a splendid paper on 'The Relation Between the Doctor and the Nurse' in the course of which he paid a high tribute to the nurses. Nursing, he said, was an art to be cultivated. Dr. Bellamy also called attention to the easiness with which the drug habit is formed. His paper was short but full of interest to the nurses and physicians present.

The Spread of Pellagra.
Dr. E. J. Wood was down on the programme for a paper on 'Diseases of Children,' but at the suggestion of some of the nurses he decided to make an informal talk on pellagra, the comparatively new disease which is claiming considerable of the time of Dr. Wood and Dr. Harlee Bellamy. The address was highly instructive as well as interesting and the speaker was followed with the closest attention by all. He made the startling statement that he believed that there were no less than 1,000 cases of pel-

lagra in North Carolina at the present time, there being only one county, Onslow, that has so far escaped the disease. Why this county should be favored above all others is a mystery, but it is a fact, said the speaker, that the disease has been discovered to the border line of the county, but none in the county.

In the beginning the speaker traced very interestingly the origin of the disease so far as history shows. The first mention of it was in Europe in 1735 and was known as a form of leprosy. It subsequently spread throughout Europe. It was in 1893 that the first case in this country was discovered in New York City. The present epidemic was discovered by an Alabama physician and the disease has spread very rapidly in this State and South Carolina. The speaker was given the opportunity to see his first case in Wilmington in 1905. Four respectable colored people were afflicted with the disease and three of the patients died. The speaker and Dr. Bellamy attended the patients. The disease was unknown to them and they were very much puzzled over the cases. He came to the conclusion that it was a form of malaria and read a paper in Atlantic City to that effect. He discovered his mistake and set about to study the disease in all its phases. The death rate for the first year and a half was 95 to 98 per cent. and since then there have been no deaths here from the disease. The disease has assumed chronic form and is of the Italian type, but there is no mention in Italian literature of the disease. The disease is not confined to any particular class of people as a speaker had seen persons in all stations of life afflicted with it.

Insanity invariably results where the disease runs for as long as three years. Some times insanity is manifest before any of the other symptoms are shown.

As to the causes the speaker did not hold to the theory that it was from Indian corn. He and Dr. Bellamy are conducting a number of experiments now and they hope to be able in a short time to clear the good name of corn. The cause, whatever it is, must be ascertained if possible, said the speaker, who admitted that there were but very few physicians who did not believe the disease was caused from corn.

Dr. Wood declared that pellagra was second in importance only to tuberculosis and that the situation was daily growing more serious. He thought the public should be aroused to the seriousness of the disease.

Dr. J. C. Wessell read an interesting and instructive paper on 'Tuberculosis,' speaking particularly of the war that is now being waged against the disease throughout the country and offering valuable suggestions in carrying on the crusade. The education of the people is necessary in order to stamp out the disease. One of the best means of carrying the crusade is through organization. Dr. Wessell was given very close attention and his paper is one of the most valuable read before the association.

Rev. Thos. P. Noe, rector of the Church of the Good Shepherd, made a splendid address on 'The Emmanuel Movement,' explaining in a comprehensive manner what it means and how it aids the medical men in the treatment of their patients. He said that it was a new yet old subject. It is a reuniting or rewedding of religion and medicine. Both science and the church have become too much materialistic and the spiritual side is often neglected. The movement is really a return to a union of the spiritual and physical. There is no conflict with the medical men; it is team work. The work is not confined to functional disorders, but in many instances aid is given the physician in the treatment of organic diseases. Mr. Noe was given close attention by the nurses and others of the audience.

The association will meet at 9:30 o'clock this morning at which business matters will be considered and two papers read, one by Miss Ferguson, of Wilmington, and one by Miss Pelton, of Asheville. At the afternoon session officers for the ensuing year will be selected and a paper on 'Tuberculosis' will be read by Miss Rugg, of Durham, following which adjournment will be taken and the visitors will be guests of the local association for a trip down the river on the steamer Wilmington. At 8:30 o'clock tonight they will be entertained at a Shore dinner at the Northport Cottage, following which they will go to Lumina for the remainder of the evening.

MRS. MILLS HOSTESS.

Entertained Party of Friends in Honor of Miss Nonie Carrington.

Mrs. B. S. Mills entertained a party of friends on Wednesday evening at her home, corner of Fifth and Chestnut streets, in honor of her guest, Miss Nonie Carrington, of Durham. The evening was most pleasantly spent by all present.

On entering the guests were served by Miss Bessie Mills, who presided at the punch bowl. After the young folks arrived a musical contest was enjoyed, and a delightful little story was read by one of the young ladies, the blanks being filled in with a number of old-time songs.

After this was enjoyed to the fullest extent the guests were shown to the dining room, where a one-course luncheon was served. The color scheme of pink and white was effectively used throughout the room. Extending from the chandelier were tiny strips of ribbon, which were strung with pink ribbons. Attached to the ribbons were cigars which were untied by the young men. Later they were read by one of the young ladies, while smoking they drew what they imagined they saw in the smoke. The judges of the amusing papers at once pronounced Mr. Burritt S. Mills the fortunate young artist. The booby was awarded to Mr. Clint Smith. The first prize was a very pretty cigar jar, which was presented to him by the hostess. It was an interesting and pleasing occasion and Miss Carrington was showered with much attention by the guests of the evening.

The cost of getting a new boarder is not often greater than the cost of one insertion of a Business Local. Sometimes two or three insertions are needed.

ORPHANS AT THE BEACH

Children Had Delightful Time at Wrightsville—Concert Given.

The visit of the children from the Odd Fellows' orphanage was featured yesterday by their trip to Wrightsville Beach, as the guest of the Tidewater Power Company, where they gave a most enjoyable concert to fully 1,000 people at Lumina and spent an hour or more in the surf, where they were especially delighted.

The entertainment was exceptionally fine and Lumina was crowded to its capacity with people from the city, a large number of Odd Fellows and Beach visitors, who were highly pleased with the interesting and well arranged concert. The regular Lumina orchestra added an attractive feature.

The children left the city at 2:30 o'clock on special cars provided for them and upon their arrival at the resort took the dip in the surf. At 5 o'clock the concert was given and at 6:45 the return trip from the Beach was made, the children arriving at 7:30 o'clock. It proved an enjoyable outing for the children and was without accident of any kind.

The children will spend today at Carolina Beach as guests of Captain John W. Harper and will leave on the steamer Wilmington, at 9 o'clock. Another concert will be given this afternoon in the pavilion at Carolina Beach and it is expected that the people of the city who are entertaining the children will accompany them on this outing. The public in general is extended an invitation to attend. A basket picnic has been arranged for the orphans and it promises to be an interesting and delightful day. The second boat to the Beach will leave this afternoon at 2:30 o'clock.

JUNIOR ORDER ORPHANAGE.

Meeting Will be Held in High Point August 27th to Select Site.

Mr. W. E. Yopp, a director of the proposed Junior Order orphanage, to be established by the State Council Jr. O. U. A. M., will attend a meeting of the Board in High Point on August 27th, at which time the site offered by that city and those of several other towns in the State will be considered.

It will be recalled that some time ago, when this matter was before the State Council, Wilmington also offered a site, but no definite action has been taken on account of the delay in the action of the National Council, which will have to grant permission. Sites have been offered also by Greensboro and Winston-Salem. It is likely that the orphanage question will be brought up at the meeting of the local councils tomorrow night.

AMPUTATION NECESSARY.

John Atkinson, Young White Man, Accidentally Shot at Bolton.

John Atkinson, a young white man, about 18 years of age, was brought to the hospital on the early morning train yesterday from Bolton, N. C., suffering from a terribly mangled hand as the result of being accidentally shot late Tuesday evening while handling a shotgun. The gun was dropped in some manner and the entire load of shot took effect in the palm of his left hand, so fearfully mangleing it that amputation was necessary just above the wrist, the operation being completed by Drs. Lane and Strossider, of the hospital staff, yesterday morning about 3:30 o'clock. At last accounts the young man was doing very well.

'Twas A Glorious Victory.

There's rejoicing in Fedora, Tenn. A man's life has been saved, and now Dr. King's New Discovery is the talk of the town for curing C. V. Pepper of deadly lung hemorrhages. "I could not work nor get about," he writes, "and the doctors did me no good, but, after using Dr. King's New Discovery three weeks, I feel like a new man, and can do good work again." For weak, sore or diseased lungs, Coughs and Colds, Hemorrhages, Hay Fever, LaGrippe, Asthma or any Bronchial affection it stands unrivaled. Price 50c and \$1.00. Trial Bottle free. Sold and guaranteed by R. R. Bellamy.

AN ORDINATION SERVICE

Deacons of Southside Baptist Church Will Be Ordained Tonight.

An ordination service will be held this evening at 8:15 o'clock at Southside Baptist church, when Deacons J. B. Pales, T. J. Vann and A. F. Cox will be ordained. The service will be an interesting one, and Rev. C. F. Whitlock, pastor of Brooklyn Baptist church, will make the charge to the deacons, emphasizing the duties and qualifications required of them. Deacon Geo. E. Leftwich, of the First church, will deliver the charge to the church showing the relation, Rev. G. A. Martin, the pastor will offer the ordination prayer. The public is cordially invited to attend. Special music has been arranged for the service.

NO INDICATION OF STORM

Tropical Disturbance Predicted Yesterday Did Not Materialize.

The northeast storm predicted by the Weather Bureau for yesterday did not materialize and there is no indication of the reported approaching hurricane. A report from the Weather Bureau yesterday gave the information that the disturbance was apparently southward of the Carolinas. There was a light northeast wind yesterday and increasing winds from this direction and partly cloudy weather today as indicated by the weather report.

The barometer during the past two days has fallen several degrees lower than at any time during the season. Storm signals are still flying between Norfolk and Key West.

At the Bijou Today.
"The Sword and the Ring," a medieval drama, is the feature of the bill at the Bijou today. It is a splendid story and the film is one of the very best. The number of patrons of the popular theatre is on the increase and there is a large audience at each performance.

To buy advertised things is coming to be a fixed habit of the people—and it's a profitable habit, too.

SPIRITS TURPENTINE

—Kinston, Aug. 17.—It is said that Dr. R. F. Bumpas, the presiding elder of this district, has recommended Rev. Swindell Love, as supply for the Methodist Church here, vacancy caused by death of Dr. Swindell.

—Goldsboro, Aug. 17.—Mr. John Bigler, of the firm of Bigler Brothers, of Mobile, to whom the city has awarded the contract for the extensive sidewalk improvements, is here making preparations for the work, which he says will be started as soon as possible and which according to the contract will be completed in five months.

—Salisbury, N. C., Aug. 17.—As a result of a dispute over room rent, Arthur Smith, colored, was fatally shot three times near Mr. Ulla, Rowan county, by Fred Sherrell, colored, with whom he roomed and who fled after the shooting. Three balls plowed through the body of Smith, who is expected to die from his wounds. Sherrell escaped without injury and is still at large, though the officers have made diligent efforts to capture him.

—Charlotte Observer, Aug. 18: What was believed by its producer to be the first bale of new cotton marketed in North Carolina in 1909 was sold by Mr. N. R. Wall yesterday at Lillsville, the purchaser being Mr. E. P. Liles. The bale weighed 400 pounds and was classified as strict middling. It was reported yesterday at Lillsville that a bale of new cotton had also just been marketed at Baldwin, though this was not confirmed.

—Goldsboro, Aug. 17.—The latest business venture in Goldsboro is the U. S. Solvent and Lubricating Co., of which Capt. J. Wash Blizell is president. Dr. S. E. Malone vice president and F. B. Ferguson secretary. The company will engage in the manufacture of U. S. graphine and metal solvent for Springfield and army rifles. The product was subjected to a practical test at the last encampment and gave thorough satisfaction. General J. F. Armfield pronounced it to be an excellent lubricant.

—Raleigh News and Observer, Aug. 18. In the city last night was Capt. J. W. Grainger, of Kinston, who is on his way home after a visit to Greensboro. Captain Grainger, a leader in the industrial life of Kinston and of all Eastern Carolina, says things are in good shape in the East in the way of crops, but, said he, "The prices of tobacco are very low." This expression of Captain Grainger's is one that is heard wherever tobacco is put on the market in North Carolina. The tobacco trust dictates the prices and pays whatever it wishes.

—Winston-Salem, Aug. 17.—While the Southern Railway's fast passenger train No. 37 was speeding along at the rate of 50 miles an hour this morning between Monroe and Lynchburg, in Virginia, a bold highwayman leveled a revolver at the head of the flagman and ordered him to "shell out." The flagman passed over his watch and \$1.50 in change, remarking that he had not another cent. The robber handed back 50 cents, saying "I am not out to take the last cent a man has." The train reached Lynchburg at that moment and the robber dropped off and escaped.

—Hamlet, N. C., Aug. 17.—Chub Henderson of this place was shot and seriously injured by his brother John here last night. Chub had been rather late and it seems that John was not looking for him to come in at the time and mistook him for a burglar. The bullet entered his thigh, inflicting a very painful wound. Dr. H. F. Kinsman was summoned to dress the wound. Chub Henderson is the man who has been figuring very prominently in blind tiger cases here lately and if his condition will permit he will have to answer to the charge of dispensing whiskey, at the September term of court at Rockingham.

—Durham, Aug. 17.—The board of aldermen last night knocked the sawdust from the near-beer stands and put a prohibitive tax of \$250 upon them. It is not believed that there will be more than one operator who can stand this. They had hitherto relied upon the incidental sales of whiskey and real beer to make it pay, but when the detectives got after the sellers they had to stop business altogether. The near-beer business is badly off now. There are not any who are not trembling and the places are being closed up. Probably in no town have they flourished more. Durham is wet in sentiment and the prohibitionists haven't done their best to break the business up. Judge Sykes has been severe with them and the officers have been vigilant, with the result that the eyeless beasts are completely on the run and the law and order league is happy.

—Wadesboro Ansonian: Work was begun Saturday on the big fertilizer mixing plant of the Southern Cotton Oil Company, here. This company recently purchased the entire plant of the Wadesboro Oil Mill Company here and the business will be under the management of Mr. W. O. Barnett, Jr., a live young business man of much experience along this line. The plant will have a capacity of 200 tons every 24 hours and will supply Anson and many surrounding counties in this State and South Carolina. There is used about 30,000 tons of fertilizer in Anson each year and there is a probability of the Virginia-Carolina Chemical Co., owners of the Southern Cotton Oil Co., making this one of their distributing points. If this is done, they will be most favorably located for supplying the best sections of both North and South Carolina with their goods.

drink wine —but drink it pure

For years foreign wine makers have been palming off imitation wines upon the American market. You can't trust a wine merely because it bears a foreign label—you don't drink labels!

But you can trust our pure American Wines, made under the U. S. pure food laws and backed by our guarantee.

And the North Carolina Seppernongs, from which we make our famous wines, are more perfect and finer flavored grapes than any grown in Europe or elsewhere.

Have Bear's Seppernong upon your sideboard—ready to serve to guests at any time.

THE COTTON MARKET.

(By Wire to the Morning Star.)
New York, Aug. 18.—An advance on bullish crop reports from the western belt was followed by a sharp break in the cotton market today, with the close easy at a net decline of 3 to 5 points.

The market opened steady at an advance of 6 to 8 points and while there was some irregularity during the morning ruled steady to firm with prices working up to a net gain of 10 to 12 points during the middle of the day.

This improvement was due to relatively firm cables, excessively high temperatures in most sections of the western belt, extremely bullish private Texas crop reports, covering by some recent sellers and support from local bulls. Realizing was heavy at times on the advance, causing slight reactions, but it was not until December contracts had sold at 12.39 and January at 12.37 or 11 points net higher than there was any sign of aggressive selling. Later the market ruled weak and the close was at the lowest prices of the day. Houses with Southern connections were sellers here on the late break, possibly against crop prospects and while there was no change in the general character of private crop news, liquidation became quite general with the market very unsettled. Lower temperatures are expected in the southwest tonight and tomorrow. The report of the National Ginners Association is rumored to make the average condition 63 per cent, as of August against the report of 71.7 per cent, compiled toward the end of last month. Southern spot markets officially reported early unchanged to 1-3 higher. The detailed weather reports for Texas, Oklahoma and Arkansas were said to show the highest average temperatures on record. Many complaints are being received from Texas that hot winds are scorching the fields.

Receipts today at the ports were 2,814 bales against 2,234 bales last week and 4,353 last year. For the week 15,000 bales against 11,058 last week and 43,907 last year. Today's receipts at New Orleans were 1,515 bales against 415 bales last year, and at Houston 2,750 bales against 6,853 last year.

Spot cotton closed quiet; middling uplands 12.80; middling gulf 13.05. Sales 214 bales.

Futures opened steady and closed easy.

THE DRY GOODS MARKET.

(By Wire to the Morning Star.)
New York, Aug. 18.—The jobbing markets were active during the day, wash goods, dress goods, silks, and cloths being ordered freely by retailers. Bag manufacturers have been buying quite freely. An auction sale of 2,200 cases of blankets was concluded in less than two hours, prices ranging from 65 cents to 70¢ on the dollar. Silk piece goods are generally quiet in the primary market although some specialties are selling well.

MARKET GOSSIP.

(By Wire to the Morning Star.)
New York, Aug. 18.—The stock market very consistently continued its reactionary and confusing course of the early week. Opening transactions were again in fairly large volume, and the strength of the better class issues gave promise of a re-awakening of public interest but before the end of the first hour the tone became dull, and obviously professional, with general reactions. There was the usual backing and filling during the early session, but it was not until the afternoon that practically the entire active list took a lower dip which wiped out all early gains, and in some instances came near the low level of the previous day. Again it was the Harrison issues which bore the brunt of the attack.

Reports of serious harm to the crops in North Dakota from heavy rains which caused a smart advance in the wheat market, were not without influence upon stocks. Advice from Missouri and Kansas as to crop conditions were of a more favorable character, but Nebraska dispatches continued discouraging. The selling was in enormous volume and numerous stop orders were uncovered.

Prices at the close, which was active and feverish, showed but slight recoveries from the lowest levels. Time money was again strong. The industrial condition continues in the direction of improvement. The feature of the bond market was the activity of Union Pacific convertible 4s in which dealings were again very heavy, with a net loss for the day of 2 1/2 points.

Bonds were steady. Total shares par value \$5,090,000. Sales of stocks today 1,072,100 shares.

FINANCIAL MARKET.

(By Wire to the Morning Star.)
New York, Aug. 18.—Money on call steady; 2 1/4 to 2 1/2 per cent, ruling rate 2 1/4 per cent, closing bid 2 1/4, offered at 2 1/2 per cent. Time loans strong and fairly active; sixty days 2 3/4 to 3 per cent, and ninety days 3 1/4 to 3 1/2 per cent, six months 4 per cent. Prime mercantile paper 4 to 4 1/2 per cent. Sterling exchange steady with actual business in bankers bills at 4.8505 to 4.8510 for 60 day bills and at 4.8665 for demand. Commercial bills 4.84 1/4 to 4.84 3/4. Bar silver 51. The Joke on the Jockey.

A few years ago a famous jockey was engaged to ride the favorite in an important race. On the way to the post he found himself cantering alongside a rank outsider, the mount of a stable boy who had only just commenced riding.

"You'll have to be careful with that brute, B," he remarked. "I've ridden him before, and you'll never be able to hold him."

B. thanked the crack for the hint and said that he would "do his best."

Halfway through the race the outsider and another were in front, with the favorite close behind. Fancying that the others were in difficulties, the rider of the favorite shouted:

"Pull out, B, and let me through! I've got the race in hand."

The crack was mistaken, however. Looking back, the stable boy replied, with a grin:

"I would, but I can't hold him!"

With which the novice let his horse have his head and shot away, the easiest of winners, to the chagrin of the crack, who finished second.

BASE BALL

National League.

Philadelphia, Aug. 18.—New York hit the ball hard in both games this afternoon winning by the overwhelming score of 14 to 1 and also winning the second 5 to 4 by bunching hits off McQuillan's delivery after the home team had taken the lead in the second inning.

Pittsburg, Aug. 18.—Pittsburg took both games of a doubleheader from St. Louis today, the first by a score of 6 to 3 and the second 2 to 1. The visitors secured all their runs in the first game before Pittsburg scored. In that game, with Clarke on first, Wagner knocked the ball over the leftfield wall for a home run, tying the score. Philippe was relieved after the fourth inning and Adams did not allow a hit, not a visitor reaching first in the next five innings. Raleigh, St. Louis' 19 year old pitcher from California, allowed Pittsburg but two hits in the second contest, but Camnitz also did well the visitors going out in order during the last six innings. Pittsburg today secured Pitcher Harry Camnitz, a brother of the local twirler, from the McKeesport, Ohio, and Pennsylvania League.

Chicago, Aug. 18.—Chicago won today in the ninth inning on Ewings wildness and a wild throw. Cincinnati had a man on third with only one out in two innings and again had the bases filled with one out, but in each inning the next two men were easy outs.

Chicago 000 000 001—1 3 0
Cincinnati 000 000 000—0 6 2
Reulbach and Needham; Ewing and Roth.

Other games, postponed.

American League.

New York, Aug. 18.—The Boston Americans made their record of consecutive victories eleven today by twice defeating New York. The scores were 3 to 0 and 6 to 3. In the first game Wood held the locals to three hits and just one player reached second base. Niles, a New York castoff, batted in two of Boston's runs and scored the other. In the second game New York had a safe lead up to the seventh, when Wagner, Stahl and McConnell made long hits, three runs resulting.

Cleveland, Aug. 18.—Cleveland took two games from St. Louis today by scores of 3 to 0 and 3 to 2. Cleveland bunched three hits in the second inning of the second game and won off Peltz although St. Louis outbatted them during the remainder of the game. LaJole, who resigned as manager of the team last night was given an ovation each time he appeared at bat. He directed the team today as his successor has not been appointed.

Detroit, Aug. 18.—Outside of Cobb, none of the Detroit players could solve Wash and the Champions were shut out. An error by Mullin, after Altizer's hit gave him a bad start, and cost one run directly and another indirectly. After that inning he pitched fine ball. Chicago outfielded Detroit.

Hissing.

The hiss does not always mean disgust and reprobation. In Japan it means delight. A Japanese in greeting one hisses. In West Africa the hiss denotes astonishment. In the New Hebrides they hiss before anything beautiful. The Basutos hiss in sign of cordial agreement. Among the Kabyles of northern Africa the hiss denotes satisfaction. In mills and factories, where the machinery makes so much noise that spoken words cannot be heard, workmen hiss to one another to attract attention.—Exchange.

Washington's Plague Spots.

lie in the low, marshy bottoms of the Potomac, the breeding ground of malaria germs. These germs cause chills, fever and ague, biliousness, jaundice, lassitude, weakness and general debility and bring suffering or death to thousands yearly. But Electric Bitters never fail to destroy them and cure malaria troubles. "They are the best all-around tonic and cure for malaria I ever used," writes R. M. James, of Louisville, S. C. They cure Stomach, Liver, Kidney and Blood Troubles and will prevent Typhoid. Try them, 50c. Guaranteed by R. B. Bellamy.

Free to All Subscribers of This Paper. Every reader of this paper who has any trouble with either Stomach or Liver, can get a free sample of Rydall's Stomach Tablets and Rydall's Liver Tablets or both if needed, by writing to Rydall Remedy Co., Newport News, Va. These two remedies are not cure alls, one is for stomach troubles only, the other solely for liver and bowel troubles. Guaranteed by Robert R. Bellamy.

Fayetteville's Thirteenth.

Fayetteville, N. C., Aug. 18.—Fayetteville is enthusiastically rejoicing today. The Highlanders took their 13th consecutive game and defeated Raleigh the fourth straight game, three to two. The game was won by a garrisonian finish when with the score tied in the ninth inning, Dobson singled advanced on McKernan's safe punt and Meaney's sacrifice and then Shumaker drove a hit to left. The game was interrupted by a disgraceful assault on Umpire Murphy by Catcher Rowe when McKernan stole third and Meaney scored on him in the fourth inning. The affair resulting in an exchange of blows among several players. Score: Raleigh 100 100 000—2 6 1

YODLES.

Wy! You!

Added another.

Which is what we need.

Wy broke his losing streak on yesterday.

Fayetteville again plucked the Birds.

Goldsboro; you surprised us—and, unpleasantly.

We're in second place, without any company, this morning.

Thirteen seems to hold no terrors for the unsuperstitious Kilties.

If somebody will only commence to put a dent in Wilson's lead, you'll see the greatest cyclonic finish imaginable.

And Lefty Wysong uncorked a single scoring Jayes. That looks like the boys are playing for all they've got in 'em.

Mister Murray was the swatsmith of the affair, polling out a couple of double sackers; and Conn got one of the same breed.

All right now, Kilties; you'll soon have a chance to show the near-champs what you've got up your sleeves for 'em.

We just know yesterday's affair in Wilson was about as greeful to Goldsboro as a juvenile ruralist with a tooth-ache in the stomach during apple time.

It is reported that Catcher Walsh, of Rocky Mount, has been signed by the New York Americans. Walsh is all right, and should make good in major company.

Wilmington stands a good chance of winning out in the race, and so does Fayetteville, for that matter. But unless Wilson loses a few games very soon, no matter how many wins we have to our credit there won't be a show for the rag. It all rests on Wilson's losses.

J. HICKS BUNTING DRUG CO. SUCCESSFUL.

After a great deal of effort and correspondence J. Hicks Bunting Drug Co., the popular druggists, have succeeded in getting the Dr. Howard Co. to make a special half-price introductory offer on the regular fifty cent size of their celebrated specific for the cure of constipation and dyspepsia.

This medicine is a recent discovery for the cure of all diseases of the stomach and bowels. It not only gives quick relief, but it makes permanent cures.

Dr. Howard's specific has been so remarkably successful in curing constipation, dyspepsia and all liver troubles, that J. Hicks Bunting Drug Co. are willing to return the price paid in every case where it does not give relief.

So great is the demand for this specific that J. Hicks Bunting Drug Co. have been able to secure only a limited supply, and every one who is troubled with dyspepsia, constipation or liver trouble should call upon them at once, or send 25 cents, and get sixty doses of the best medicine ever made, on this special half price offer with their personal guarantee to refund the money if it does not cure.

Man With the Conundrum.

The man with the fretful eyebrows and the sorrowful ears comes to the desk of the man with the dispirited mustache and asks:

"Why is a man who goes on an expedition to discover the south pole and after many months of toil and privation during which he eats all his canned goods and half of his dogs and then returns to civilization with a fixed appetite for boot heels and hat brims—why is he like a woman who has been waiting impatiently since midnight for the sound of the latch-key as her husband endeavors to unlock the front door without awakening the entire neighborhood?"

The man with the discouraged mustache shakes his head impatiently, and the other repeats the question, whereupon the man with the discouraged mustache asks:

"What is the difference between a lady reading a hair restorer ad. and a man who asks fool questions when you are busy? Answer—Because they are both about ready to die."

"Oh, very well!" sniffs the man with the fretful eyebrows and the sorrowful ears. The answer to mine is that both are getting ready to deliver a lecture, but I wouldn't tell you if you pleaded with tears in your eyes."

And with a haughty tread he departs.—Chicago Post.

Stevenson and Dreams.

Robert Louis Stevenson owed much of his inspiration to dreams. In one passage he attributed some of his finest work to the "brownies" who tented his brain during moments of unconsciousness. "The Strange Case of Dr. Jekyll and Mr. Hyde" owes its origin to a dream. "I had long been trying to write a story on this subject," writes Stevenson, "to find a body, a vehicle, for that strong sense of man's double being which must at times come in upon and overwhelm the mind of every thinking creature."

For two days I went about racking my brains for a plot of any sort, and on the second night I dreamed the scene at the window and a scene afterward split in two, in which Hyde, pursued for some crime, took the powder and underwent the change in the presence of his pursuers. All the rest was made awake and consciously, although I think I can trace in much of it the manner of my brownies."

Double Quick Composing.

Sir Arthur Sullivan wrote the overture to "The Yeomen of the Guard" in twelve hours and that to "Iolanthe" in less space of time—from 9 p. m. to 7 a. m. But even this capacity for speed in composition is eclipsed by M. Bompart, who for a wager composed the music to a song in ten minutes. Mr. N. Trotere, however, is the composer of whom most quick time anecdotes are told. His beautiful song "Asthore" was both written and composed in forty minutes in Blanchard's restaurant. The melody of "In Old Madrid" was the result of a sudden inspiration.

It came to the composer while on his way home from the aquarium. Lost it should escape him he rushed into a small public house in Rochester row, seized a biscuit bag and on it jotted down the air. But Mr. Trotere holds the championship. It is said that he actually composed "The Brow of the Hill," wrote a letter and ran 400 yards to post it in eight minutes.—Dundee Advertiser.

Odd Names in China.

Chinese children are endowed with strange Christian names. Their girls, for instance, are not called Mabel, Jenny or Matilda, but Cloudy Moon, Celestial Happiness, Spring Peach or Casket of Perfumes. Their boys get less attractive names, being made for work and wisdom rather than pleasure and dancing. Thus we find a little two-year-old Practical Industry; three-year-old, Ancestral Knowledge; four-year-old, Complete Virtue; five-year-old, Discreet Valor. To their slaves they give still another set of names. Not For Me, Joy to Serve, Your Happiness and Humble Devotion may be taken as typical examples.

Harold Chose the Easier Way.

Maynard had been naughty, and his father, after showing him his fault, had sent him up to his room to ask God to forgive him for being a bad boy. Three-year-old Harold was present, but seemed to take no notice of the conversation. It was his turn, however, before many days to receive punishment, and his father took him across his knee. "Oh, don't, papa," he said. "I would rather go upstairs and pray."—Delineator.

John's Great Loss.

"For goodness' sake, Harriet, why so sad?"

"The cook's left, but that isn't the worst of it. She took with her the recipe book for all the things John's mother used to make."—Brooklyn Life.

Not His Hat.

Principal—Johnnie, I'm surprised that your French is so weak. Now, think. Chapeau—what is that? What does your father throw up when he's merry? Johnnie—His job, sir.—London Tit-Bits.

A Legal Difference.

The Client—How much will your opinion be worth in this case? The Lawyer—I'm too modest to say. But I can tell you what I'm going to charge you for it.—Cleveland Leader.

A Sign.

Whenever you have people entering in any one as "an original genius" you may be sure that they are prepared to make excuses for him.—Chicago Record-Herald.
